COURSEWORK

UNDERGRADUATE

Data Structures and Algorithms

Operating Systems

Software Design And Engineering

Object Oriented Programming

ONLINE COURSES

Web Development

SKILLS

PROGRAMMING

- Python
- C++
- Java
- PHP
- HTML
- CSS

TOOLS

• AngularJS • Flask • Numpy • Pandas

OTHERS

- Sublime Text • Jupyter Notebook
- CoLaboratory • VSCode • PyCharm

STATEMENT

Looking for positions in the convergence of software engineering and machine learning while learning how to create accurate and quick machine learning models. practical experience working on AI and machine learning projects

WORK EXPERIENCE

TECHNEPLUS | PYTHON DEVELOPER INTERN

Mar 2022 - May 2022 | Remote

- Integrated Knowledge of Growing Development Responsibilities
- Remained abreast of developments in related python frameworks

INDIDIGIX | WEB DEVELOPMENT (FULL TIME)

Sep 2022 - Nov 2022 | Ghaziabad, India

- Website Build For Indidigix By Me Using HTML, CSS, Java Script
- Worked Individually On This Project
[\[Click To Open\]](#)

PROJECTS

STOCK MARKET PRICE PREDICTION MODEL | ML MODEL

- Project is build using Python and Machine learning
- It can predict any stock price in Indian live market
- Worked Individually On This Project
[\[Click To Open the Project\]](#)

SOCIAL DISTANCING DETECTION MODEL | ML MODEL

- Project is build using Python and Machine learning
- Using CV2 And YOLOv3 This Project is Build
- Worked Individually On This Project
[\[Click To Open the Project\]](#)

SCHOOL FEES PAYMENT MANAGEMENT SYSTEM | SQL PROJECT

- Project Is Build In PHP And SQL
- In College 3rd year As a team leader this project is build under my Lead
[\[Click To Open the Project\]](#)

FACE RECOGNIZER WITH ATTENDANCE | ON GOING

- Project Is Building Using Python Machine learning
- Working Individually On This Project

HOUSE PRICE PREDICTION | ON GOING

- Project Is Building Using Python Machine learning
- Working Individually On This Project
